

JAY BHARADIA

Computer Engineer

PROFILE

I believe in Knowledge because it is the only thing in this world with greatest power before money that will stay updated at all times and will empower us& nurture us. The internet has enabled us to acquire Knowledge and use it in our daily life and prosper ourselves.

I like to Read Books, Write Blogs, Research a lot. Books offer us a great source of detailed content of almost anything. I'm looking forward to work with companies to enhance my skills and benefit your company in many ways.

I am a Tech geek, automated lots of daily tasks on android, Experienced in Windows and Linux Operating System, Excellent grasp in Computer Networking & Programming Languages.
